

ENVIRONMENTAL POLICY
ISO 14001: 2015 – 5.1, 5.2, 6.2.1, 7.3, 7.5, 9.2, 9.3 & 10.3

NEXII's Mission is to build a vibrant future for people and planet. We create building solutions that transform living standards for all communities while ensuring the enduring health of our Earth.

NEXII is committed to the development, implementation, and certification of an Environmental Management System to meet the requirements of ISO 14001:2015, for its Manufacture of Insulated Core Panels for Buildings.

This Environmental Policy is our **pledge to direct action** and the guide for our Environmental Management System.

Through it we commit to the following:

- Maintain and continually advance NEXII's high standards of environmental performance in the manufacture of Insulated Core Panels for Buildings.
- Protect and support healthy ecosystems, work to prevent pollution, and work to eliminate waste in our manufacturing facilities, project site activities and across our product's entire life cycle.
- Comply with all relevant legal environmental laws, regulations, and air, water and land discharge permits in the jurisdictions in which we work in all material respects.
- Continually monitor and improve our environmental performance and the effectiveness of our Environmental Management System by:
 - Establishing objectives and targets as part of our broader Ultra Conscious Blueprint.
 - Measuring and managing our natural resource use and greenhouse gas emissions and working towards net zero climate pollution.
 - Adopting zero waste practices through effective manufacturing processes and the recovery, recycling and reuse of materials.
 - Protecting and supporting water resources by limiting water withdrawal, promoting water efficient practices and responsibly managing water discharges.
 - Assessing environmental policies and practices of our suppliers and including life cycle thinking in purchasing decisions.
 - Conducting environmental due diligence in connection with acquisitions and prospective Nexii Certified Manufacturers.
 - Reporting annually on our environmental performance with scheduled audits and management reviews.
- Provide adequate resources and training to manage, plan and carry out actions that deliver measurable environmental improvements.
- Communicate our Environmental Policy to all internal and external stakeholders.

This policy applies to all offices and facilities of NEXII and Nexii Certified Manufacturers. It encompasses our operations, our manufacturing processes, the resources we use, the materials we source, the product we sell (Insulated Core Panels for Buildings) and on-site building assembly activities.
